

Dear Dr Claflin, Mrs Jenkins, all STP staff

Our 13 year old granddaughter, Jessica, had a terrific time last week at the STP camp.

She walked in a shy girl, coming all by herself, not knowing anyone, and walked out last Friday night from Washburn auditorium with "59 new friends in her iphone"!

And I would add a wonderful set of memories to go along with the new friends!

Everything I had read about the camp appealed to me and I was just sure she would take to it and she did.

4 years ago she and her family emigrated to the USA (from Scotland) and she went to three new schools before her current one.

She was nervous about going to one more new thing. Her passion is singing and acting so she got plenty of good experience with being on a stage and being part of a welcoming group. And performing in such a professional atmosphere! She loved it all!

Her best quote was on Thursday afternoon when I picked her up (she stayed with us during the camp) when she said, " I love this place! I love these people! Everyone of them! There's lots of drama going on right now but I'm not taking sides because I love all these people."

It made me grateful for Mt Olivet's mission which does not always include traditional forms of prayer and evangelizing. I do believe the Lord was at work these last two weeks in the lives of these kids and I'm so grateful for your work with this challenging age group!

Thank you Dr Claflin and all your staff. You made one young girl a star in her own eyes!!!

Sue (and Sam)

We were so impressed with the whole performance last Friday night. What a huge job you (and your staff) tackle and make it look so easy!
